**SCI FI:
From Scientists
to Innovators for
Industry**

SCI FI 2023

Transitioning from academic research to working in the Pharma and Medtech industries can be challenging. This course helps you overcome that challenge with the guidance of academic and industry partners, so that you can learn from real-life cases and have the opportunity to work with experienced mentors.

Through our three-month blended-learning programme we aim to facilitate the transition from an academic research environment to the working world of the industry with the support of our industry partners, we want to ensure that the participants receive crucial skills needed for this transition to an industry setting - soft skills, creative skills, business skills and industry specific skills.

Who can apply

This programme is for you if you're a young scientist:
- based in any Horizon Europe country
- working at university
- with a PhD in healthcare
- or with a Postdoc in healthcare

Costs

Full programme: Participation fee of €500
Light programme: Participation fee of €150

FROM SCIENTISTS TO INNOVATORS FOR INDUSTRY

FROM SCIENTISTS TO INNOVATORS FOR INDUSTRY

Programme Structure

The Full Programme

- Complete all seven core modules and at least one bonus module.
- Participate in all events and webinars.
- Complete assignments after each module.
- Receive at least two hours of mentoring.
- Solve a real industry case study: Participants will be divided into interdisciplinary teams of five and will work jointly to develop a solution to a real-life industry case. The solution will be presented to a jury and industry partners at the final event.
- Pitch with your team during the final event of the programme.
- Commit approximately 5 hours per week from September to December 2023.

The Light Programme

- Complete all seven core modules and at least one bonus module.
- Participate in the final and the recruitment events.
- Commit approximately 1.5 hours a week from September to December 2023.
